

I am writing to support K-Love radio and the FM translators that they currently work with. K-love radio has touched so many lives with their positive, up-beat, and encouraging songs, broadcasts, commentaries, and presence on radio. The way in which they broadcast is very effective and it brings the music to so many areas in which it would not if switched to LPFM stations.

Please do not make this change as I believe that the service currently provided is in the best interest of the listeners and for the public in general. K-Love strives to be effective, influential, and inspiring to all who listen and it would be a shame to limit that access as it would be if LPFM stations took over.

Please consider the millions of listeners that tune into K-Love before you rush in and make a life-changing decision to mess up their current broadcasts.

Thank you for taking a moment to review my concerns. I look forward to hearing more about the resolution found.
